

加拿大護士茶™ : OVER 70 YEARS OF SUCCESS

Five years to live. Chris Needham remembers first hearing those words in July, 1989. He was barely out of surgery, when his doctor entered his hospital room, stood by his bed, and delivered his death sentence. "We could only get part of your brain tumour. Its too close to your pituitary gland. You have five years to live." But six years later the 39 year-old Ottawa, Ontario man says his health is stable and his eyesight is clear. And, he says, it's thanks to a herbal remedy called Essiac®.

"I wanted to have a relatively healthy, normal life for my five years, and I have. I've been able to do most of what I've wanted to do!" he says.

Needham heard about Essiac® from a friend in the nursing profession. She had read the Rene Caisse's herbal remedy had apparently healed people of all ages with terminal cancer and recommended he try Essiac®. Because he was reluctant to undergo the agony of chemotherapy, he felt he had nothing to lose.

Within the first week of daily doses, Needham noticed his stool was discoloured and went to his doctor for test. The doctor found cancer cells in the stool and told Needham the disease had spread to his bowel.

But further test found the cancer cells were all dead. And then Needham's vision began to improve. "Essiac® was flushing the cancer cells out of my system! After two weeks, the clearness in my eyes just got better. It took six months, but at least I can see clearly now," he says.

For the year and a half that he was drinking the Essiac®, he never had any colds, flues, or allergies. He went off the remedy a year ago when he got a kidney infection, but he says the remedy is still working for him. Above all, his tumour has not grown since he began taking Essiac®. Says Needham, "I recently went to have x-rays of my skull taken and while the tumour is still there, its no larger. Actually, its a lot cleaner that it was after my surgery. A lot of the salt around it has disappeared."

Success stories like Needham's have been documented for over 70 years, but only recently have physicians in Canada started to accept Essiac® as an alternative treatment in the fight against cancer. In September of 1995, Essiac® International was invited to introduce Rene Caisse's original Essiac® herbal formula at the Cancer Symposium in Tampa, Florida which was attended by over 500 M.D.'s, Ph.D.'s, N.D.' researchers and scientists sponsored by the American College of Nutrition and Cancer Treatment Research Foundation. Says T.P. Maloney, of Essiac® International in Ottawa, Ont. Hospitals and health care practitioners are turning to us because they're finding

chemotherapy, radiation, prescription drugs and surgery don't work for every cancer patient."

The first known member of the medical profession to turn to Essiac® for help was Rene Caisse, a nurse from Bracebridge, Ontario. In 1922 she obtained the herbal formula from a patient who had been treated for cancer by an Ojibway medicine man in northern Ontario. Caisse prepared the herbal formula by infusion into a drink for her aunt who was in the final stages of cancer.

The blended herbal formula includes burdock root, sheep sorrel, turkey rhubarb and slippery elm bark. Within two months, her aunt's cancer disappeared and she lived for another 20 years.

Caisse named the herbal remedy Essiac® (her name spelled backwards).

The Bracebridge City Council granted her the use of an available hotel to use a cancer clinic. Nurse Caisse reportedly healed thousands of cancer victims at the clinic in the '20's, '30's, and early '40's. Most of these patients has been diagnosed by their doctors as incurable. But Caisse preferred to treat only hopeless cases. She claimed Essiac® could also be effective in combination with radiation treatment and chemotherapy.

For decades Health and Welfare Canada demanded Caisse disclose her herbal remedy for clinical test. But she refused to reveal her proprietary herbal formula unless she was assured that during the formal testing period Essiac® would still be available to those who needed it. Authorities would not give her that assurance. Caisse came under tremendous pressure, which included threats of prosecution and imprisonment. She closed down her clinic in 1942 and went into seclusion for many years before continuing on with her Essiac® treatment of cancer patients.

Caisse died at the age of 90 in 1978. Before she died, she signed over the sole proprietary rights to the original Essiac® formula and trademark to the Resperin Corporation of Toronto. Dr. Charles Brush of Cambridge, Mass. was the witness at the signing of this contract, attesting that Caisse's original formula was never revealed to anyone other than the Resperin Corporation.

Despite the well-documented facts, controversy and confusion has been created about Essiac® by producers of counterfeit products claim to be the same, just as goods, or have more ingredients than the original Essiac®. Whatever they may be,

they are not Rene Caisse's original proprietary herbal formula nor do they have Essiac's history of success for over 70 years.

Until recently, it was difficult to obtain Essiac® easily, because it was regulated as a drug by the Food and Drugs Act under Health and Welfare Canada. Anyone marketing Essiac® as a cure for cancer was liable to fines or imprisonment.

For many years Resperin and Rene Caisse fought both the federal and provincial governments to make Essiac®

available through the health care system. Today Essiac® is widely used through the health care practitioners, selected pharmacies and fine health food stores.

While Essiac® doesn't work for everyone, Maloney says that "in reported cases it has been effective."

According to Maloney, "When people follow the 12 consecutive week program with no deviations, in

conjunction with good nutrition, they are more likely to have positive results. Essiac® does help people to get healthy and it is non-toxic and drug free."

For Needham, Essiac® worked its magic in just the right places. His passion requires clear vision. Now a retired employee of the federal government, for almost 20 years Needham has spent weekends as an independent film animator.

Needham told himself before his operation that if he survived he'd make a pilot for a children's television show. "When I came out of surgery and my doctor told me the news, I said to myself, "First of all, I don't believe you. I'm going to find an alternative healing product. And, secondly, I'm going to make my pilot!" he says, and bursts into a hearty laugh.

He succeeded. His pilot, *Just Jeffery*, appeared on Ottawa's CJOH television in the spring of 1992. These days Needham sees it all clearly and is making the most of his extended vacation. He's working on new animated film ideas and building new sets in the rooms of his Ottawa home.

Essiac® is the original, non-toxic, drug free, Rene Caisse proprietary herbal formula. It is also herbicide and pesticide-free. Resperin Corporation follows the precise proprietary formulation Rene Caisse set forth. Resperin Corporation is the only maker of Essiac®. Only the distinguished green-on-green box bearing the Resperin Corporation name and the Essiac®, or Essiac®, trademark is the original Rene Caisse herbal remedy.

Success stories have been documented for over 70 years, but only recently have physicians in Canada started to accept Essiac as an alternative treatment in the fight against cancer.

Their petition, dated at Toronto on October 27, 1926, reads as follows:

TO WHOM IT MAY CONCERN:

WE, THE UNDERSIGNED, BELIEVE THAT THE "TREATMENT FOR CANCER" GIVEN BY NURSE R.M. CAISSE CAN DO NO HARM AND THAT IT RELIEVES PAIN, WILL REDUCE THE ENLARGEMENT, AND WILL PROLONG LIFE IN HOPELESS CASES.

TO THE BEST OF OUR KNOWLEDGE, SHE HAS NOT BEEN GIVEN A CASE TO TREAT UNTIL EVERYTHING IN MEDICAL AND SURGICAL SCIENCE HAS BEEN TRIED WITHOUT EFFECT, AND EVEN THEN, SHE WAS ABLE TO SHOW REMARKABLY BENEFICIAL RESULTS ON THOSE CASES AT THAT LATE STAGE.

WE WOULD BE INTERESTED TO SEE HER GIVEN AN OPPORTUNITY TO PROVE HER WORK IN A LARGE WAY.

TO THE BEST OF OUR KNOWLEDGE, SHE HAS TREATED ALL CASES FREE OF ANY CHARGE AND HAS BEEN CARRYING ON THIS WORK OVER THE PERIOD OF THE PAST TWO YEARS.

To:

The Honourable the Prime Minister of Ontario,
The Honourable the Minister of Health for Ontario,
The Honourable the Attorney-General of Ontario.

This humble petition of the Undersigned, in the Province of Ontario, sheweth as follows:—

1. That whereas Cancer is considered the greatest scourge of humanity.
2. Whereas Miss Hens M. Calise of Bracebridge has discovered "ESSIAC", a treatment which has proven to be a complete control, if not a cure for Cancer.
3. Whereas patients treated with "ESSIAC" several years ago, are still living and well.
4. Whereas Miss Calise has pathological proof of the effectiveness of "ESSIAC", her treatment for Cancer.
5. That we as physicians and doctors of the Medical Profession recognize the importance of this treatment and are in favour of keeping it in Canada.
6. And whereas Miss Calise is demonstrating this treatment before American University doctors, which will inevitably take her out of Canada permanently if action is not taken to keep her here.

Wherefore be it resolved that we, the undersigned do strongly urge that the Honourable, the Minister of Health take immediate action, to make this treatment available for cancer sufferers, and keep it a Canadian discovery.

And your petitioners will ever pray &c.

CERTIFICATE OF ANALYSIS

Product Name: CANESSENCE™ TEA BAGS

Manufacturing Date: May 2014

Lot Number: 14000021

Expiration Date: May 2017

Item Number: 80016

Storage: Minimum 3 years when properly stored in originally sealed packaging. Store container in a cool and dry place away from light, water, humidity and extreme variations in temperature.

ANALYSIS	METHOD	SPECIFICATION	RESULTS
Heavy Metals			
Lead	EPA 3050/6020 USP730	Report Only	0.35 ppm
Arsenic	EPA 3050/6020 USP730	Report Only	0.82 ppm
Cadmium	EPA 3050/6020 USP730	Report Only	0.278 ppm
Mercury	EPA 3050/6020 USP730	Report Only	<0.005 ppm
Microbiological Analysis			
Aerobic Plate Count (cfu/g)	AOAC 990.12	Max. 1,000,000 cfu/g	880,000
Yeast (cfu/g)	FDA-BAM, 7 th Edition	Report Results	30
Mold (cfu/g)	FDA-BAM, 7 th Edition	Report Results	290
Coliform (MPN/g)	AOAC 991.14	Report Results	340
<i>Salmonella</i>	AOAC-RI100201	Negative in 25 g	Negative
<i>Staphylococcus sp.</i>	AOAC 2003.07	< 100	< 10
<i>E. Coli</i>	AOAC 991.14	< 10	< 10

Based on the above analysis, this product could be considered suitable for human consumption.
